

Free and Reduced Meals Program

Your child may be eligible for the Free and Reduced Meals Program. The program provides breakfast and lunch for a reduced price or for free, based on your income. The program is confidential. Children eligible for the program receive a meal card that is the same meal card full-paying students receive. There is no difference.

The chart below shows the Income Eligibility Guidelines used to determine if a child is eligible for free or reduced breakfast and lunch at school. If your annual income is at or below the amount in the second column for the number of people in your household listed in the first column, your child may be eligible for REDUCED meals. If your annual income is below the amount in the 7th column for the number of people in your household listed in the first column, your child may be eligible for FREE meals.
