

SchoolMessenger SafeArrival

FULLY MOBILE, TWO-WAY
STUDENT ABSENCE REPORTING

In today's fast-paced educational environment, schools and districts face the overwhelming challenge of tracking and updating unexcused absences—often resulting in wasted administrative hours, overlooked discrepancies, and potential student safety concerns. PowerSchool SchoolMessenger SafeArrival makes attendance management faster and easier. As an add-on to PowerSchool SchoolMessenger Communicate and the PowerSchool SchoolMessenger app, SafeArrival is the student absence tracking tool built to help schools save time and money on attendance reporting and follow-up while enhancing student safety.

Simplify Attendance Management

Ensure accuracy and consistency of attendance data by eliminating manual data entry and minimizing errors with direct syncs with the student information system (SIS).

Enhance Student Safety

Zero in on valid unexcused absences and ensure families and the school are immediately aware of discrepancies in student attendance to speed up finding students who might be missing and allow for prompt action.

Increase Ability to Scale

Increase scalable efficiency to handle large volumes of student data, regardless of your district size, by automatically updating attendance data in SIS once parents excuse students' absences.

Save Staff Time

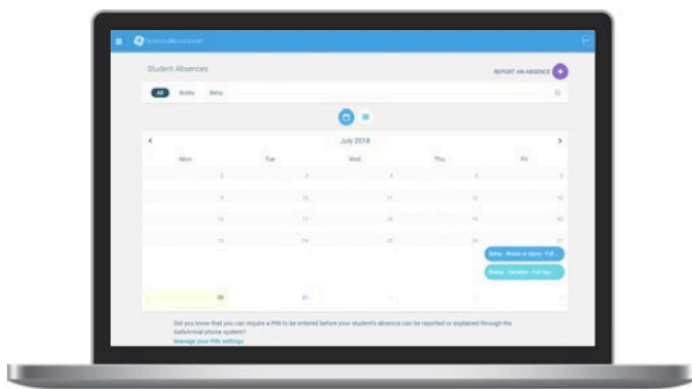

Ease the burden on staff by eliminating manual tasks like listening to absence voicemails, combing through various attendance notes and parent emails, or manually calling parents to find out if their child is legitimately absent.

Provide Ease of Use for Families

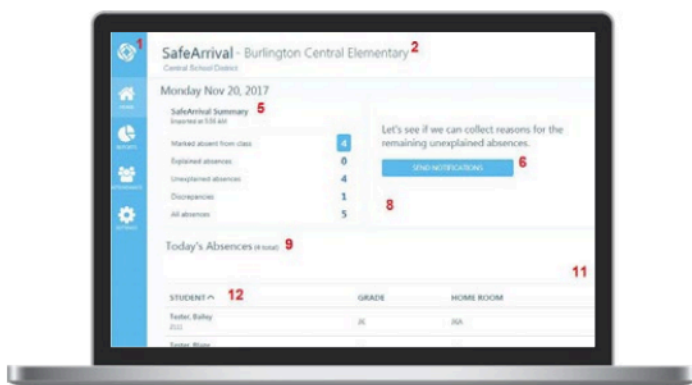

Provide families flexible options to securely excuse absences with just a few taps inside the SchoolMessenger app or the web-based SchoolMessenger interface or through a toll-free phone line to report absences and respond to absence notifications by phone.

With a comprehensive program to protect the security and integrity of our applications—including robust cloud security, security by design, third-party penetration testing, and a responsible disclosure program—all validated by independent third-party auditors, [PowerSchool demonstrates our commitment to protecting our customer's data.](#)

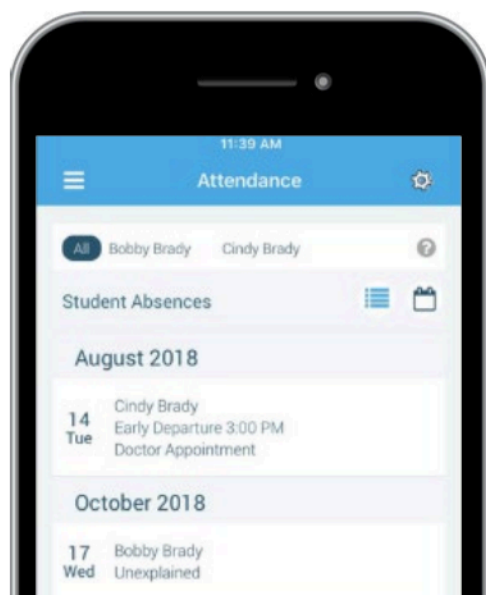

Mobile, Voice, and Web Tools

Parents can conveniently and securely excuse absences with just a few taps inside the SchoolMessenger app or the web-based SchoolMessenger interface. In addition, parents can also call a toll-free phone line to report absences and respond to absence notifications by phone. This makes SchoolMessenger SafeArrival accessible to all parents.

Administrative Tools

As soon as absent students are entered into the student information system, SafeArrival reconciles all absences against the parent-reported absences. This allows school staff to easily identify students who are unaccounted for. SafeArrival also automatically notifies parents of unexplained absent students by telephone, email, text, and mobile push notification. As excuses for these unexplained absences come in, SafeArrival makes it easier to update the SIS, further easing the burden on staff.

Parent Reporting Tool

With SafeArrival, parents have two powerful ways to communicate with schools about a child's attendance: notify the school in advance about an upcoming absence, or rapidly respond to excuse an absence after the fact. In both scenarios, parents can send attendance alerts to schools for all of their children and provide a reason for each absence – all in one simple communication.
