## School District Areas of Improvement and Planning - Indicators

### Suspension/Expulsion by Race/Ethnicity (Indicator 4B)

Indicator not flagged at this time.

### Disproportionate Representation by Race/Ethnicity (Indicator 9)

Indicator not flagged at this time.

### Disproportionate Representation by Race/Ethnicity/Disability (Indicator 10)

Indicator not flagged at this time.

### Timely Initial Evaluations (Indicator 11)

Indicator not flagged at this time.

### Secondary Transition (Indicator 13)

Indicator not flagged at this time.

### Graduation (Indicator 1)

Indicator not flagged at this time.

### Drop Out (Indicator 2)

Indicator not flagged at this time.

### Assessment (Indicator 3)

Indicator not flagged at this time.

### Education Environments (Indicator 5)

<p>Improvement and Planning Activity</p> <p>Per our CMCI Corrective Action Plan: -Special Education Supervisors (SES) will review LRE numbers with administrators regularly -SES will develop level-based LRE Teams comprised of a Supervisor, an Administrator, a Special Education Teacher, and a General Education teacher. -LRE Teams will review LRE Data trends within the District and trends of specific grade levels (elementary, middle, and high). -Grade Level LRE Teams will develop and present bimonthly PD to respective school-based teams on inclusive practices, etc. -Students will have more opportunities in general education programming. -Additional information in the LRE Section</p>
--

## Parent Involvement (Indicator 8)

Indicator not flagged at this time.

## Early Childhood Transition (Indicator 12)

Indicator not flagged at this time.

## Post-School Outcomes (Indicator 14)

Indicator not flagged at this time.

## Resolution Sessions (Indicator 15)

Indicator not flagged at this time.

## Mediation (Indicator 16)

Indicator not flagged at this time.

School District Areas of Improvement and Planning - Monitoring

District has completed all monitoring corrective action/improvement plans.

# Identification Method

Identify the District's method for identifying students with specific learning disabilities

Discrepancy Model

Building Name	AUN	Branch Number	RTI	Approved RTI Use
---------------	-----	---------------	-----	------------------

## Non-Resident Students Oversight

1. Is your district currently a host district for a 1306 facility?

Yes

24 P.S. §1306 facilities				
Facility Name	Facility Type	Facility Type: Other	Services Provided By	Total Students in Facility
Woods Services	Other	Residential APS	Other	59
Community Service Foundation (CSF)	Resident Treatment Facility		District	3

1. Describe the host's educational oversight to ensure students with disabilities are educated in the least restrictive environment while in the 1306 facility? (If not a host, answer as if you were.)

The District hosts students receiving treatment at Woods Services (residential APS) and Community Service Foundation (LPA, RTF). The continuum of services is available to all students within the neighborhood school. If it is not educationally beneficial or physically/medically/emotionally possible for students residing in RTFs or Community Residential Rehabilitative service homes to attend the neighborhood school, the District offers an educational program at the RTF or reviews the programming offered at the residential Approved Private School to ensure that it meets the students' needs. In addition to overseeing programming at CSF, the District relies on services from the local intermediate unit to support oversight of its 1306 responsibilities at Wood Services.

2. Describe the district's procedures for communicating with 1306 facilities and how the district ensures a successful transition back to school?

The District and the 1306 Facilities communicate formally and informally. Formally the District participates in IEP meetings to ensure that the continuum of services and FAPE is provided to students at Woods Services and CSF. Informal communication occurs regularly between both entities to remain current regarding the needs of the students served.

## Incarcerated Students Oversight

1. Does the district have an adult correctional facility that houses juveniles within its geographical boundaries?

No

1. Describe the system of oversight the District would implement to ensure that all incarcerated students who may be eligible for special education are located, identified, evaluated and when deemed eligible, are offered a free appropriate public education (FAPE).

## Least Restrictive Environment

1. Review the district's data for Least Restrictive Environment. Highlight areas of improvement.  
The Special Education Data Report State Performance Plan Targets: Special Education (SE) Inside Regular Education Class 80% or More is 61.5%, where the district percentage is 44.8%; SE Inside Regular Education Class Less than 40% is 9.6%, where the district percentage is 5.4%; SE in Other Settings is 4.8% where the district percentage is 3.4%
2. What universal practices does the district utilize to address the academic and social/emotional needs of all students in need of accommodations to their learning environments?  
All students' academic and social/emotional needs are identified and accommodated in various ways. The district is in year two of implementing a multi-tiered approach to supporting students with and without disabilities. It follows the standard multi-tiered system of support framework that includes screening, progress monitoring, multi-level prevention systems, and data-based decision-making. Neshaminy's Department of Curriculum, Instruction & Assessment invites special education representatives when researching and identifying curriculum so that their practical knowledge and experience working with our students with disabilities are considered throughout the curriculum review cycle. Building-level teams comprised of administrators, counselors, nurses, and teachers discuss students who struggle academically or exhibit concerning behaviors. Appropriate interventions are identified, implemented, and the results are discussed during subsequent meetings. Neshaminy has been participating in PBIS for over ten years. The PBIS team has recently begun implementing a social-emotional learning program called Second Step. Second Step is recognized by the Collaborative for Academic, Social, and Emotional Learning (CASEL). Lessons are designed to teach students age-appropriate skills to support a welcoming and safe learning environment.
3. Describe the academic programming and training efforts the LEA utilizes to ensure meaningful participation of students with disabilities in the general education curriculum.  
The district provides academic programming at a variety of levels. In many circumstances, support and services are provided to students in the general education environment. Special education and general education teachers work collaboratively to meet the learner's needs. Paraprofessionals may support this. In addition, the Supplemental Aids and Services (SaS) toolkit may be used to analyze a general education classroom's instructional, physical, and social environment from the perspective of the student's needs. If students require further modifications or accommodations which may not be easily delivered in the general education environment, direct instruction in the area of need is provided in a smaller setting, allowing for more intensive interventions. These classes may be focused on the same skills being presented in the regular education class, accommodated in a way that may be less effective in a general education setting. Depending on the student's needs, more significant modifications to the curriculum may need to occur, including alternate eligible content. The essentialization process helps break down complex ideas to select what is meaningful for the learner to achieve in relation to the grade level standard.
4. Describe the supplementary aids and services the LEA utilizes to ensure meaningful participation of students with disabilities in extracurricular activities.  
Students of all abilities are encouraged to participate in the wide variety of extracurricular activities offered in Neshaminy schools. It is recognized that cognitive, behavioral, or physical limitations may create challenges related to participation for students with disabilities. When this happens, supports are put in place to ensure meaningful participation. Identifying what needs to happen often begins with the question, "what does the student need to be successful" in this activity. Problem-solving may include consultation with the administration, case managers, coaches, parents, and the student. For some students to successfully participate in extracurricular activities, an additional staff member or peer buddy may be necessary to support the student. Tools that may be used to guide the instruction could be the supplemental aids and services (SaS) tool kit or an ecological assessment of the activity to

understand better what part (or parts) of the activity the student needs support in so that they can be successful. The focus remains on the student performing as independently as they can in an activity with their non-disabled peers.

5. Describe the District procedures, which ensure that, to the maximum extent appropriate, children with disabilities placed in private institutions are educated with non-disabled children and have the opportunity to participate in district lead extracurricular activities?

Private placements are made for students needing more intensive support and services in a specialized setting that might exclusively educate students with similar needs and disabilities. The district welcomes interested students to participate in extracurricular activities. Participation conversations often start through parent inquiry to the athletic department or during IEP meetings. In collaboration with the private school, the transportation provider, and the family, Neshaminy works together to facilitate participation. This can be challenging because schedules may align differently when going from one location to another. Open and authentic communication is necessary for the student to be successful. Training of district staff (and students) may need to occur to support the student in extracurricular activity appropriately. An additional staff member or peer buddy may be required to ensure meaningful participation. Transitioning from a private to a general school setting may take work for the student. For instances such as this, developing a transition protocol may be necessary so that all understand what role they play in the student's successful transition and participation in the extracurricular activity. As mentioned in a previous response, using the supplemental aids and services (SaS) toolkit may provide ideas the team has not considered to support the student's success.

6. Discuss the district's need to build capacity and expand programs and services in an effort to provide a continuum of services. (Consider the out of district placement chart)

We wish to build capacity to support our desire to increase education among students in the LRE. To do this, we will work with Bucks IU and PaTTAN to provide the following professional guided learning opportunities: 1. Framework for Access & Belonging (FAB): With Supplementary Aids and Services 2. Optimized Inclusive Practices in Pennsylvania (OIP) Framework 3. Quality Indicators of Emotional Support Services and Program 4. Review of best practices for Autistic Support Programs.

### Out of District Placements

## Positive Behavior Support

Date of Approval

20218-11-27

Uploaded Files

113.2BehaviorSupport.pdf

1. How does the district support the emotional, social needs of students with disabilities?

Students with disabilities with emotional and social needs have goals or specially designed instruction incorporated into their IEPs. Teachers, licensed counselors, and trained paraprofessionals provide explicit instruction. We foster academic and social-emotional growth within our students. We seek to enhance the educational experience for children and youth experiencing behavioral and emotional challenges to become healthy and productive individuals. Behavioral and Emotional Support Services are developed and implemented throughout our schools for students experiencing behavioral and emotional challenges.

2. Describe training provided to staff in the use of positive behavior supports, de-escalation techniques and responses to behavior that may require immediate intervention.

The District employs three Board Certified Behavior Analysts (BCBA) to assist with the ongoing training of behavioral interventions, including developing positive behavior plans and Crisis Prevention Institute De-escalation Training (CPI) to ensure that the staff is trained in proactive de-escalation techniques. PDE has formally recognized all elementary and middle schools for implementing and sustaining the fidelity of School-Wide Positive Behavior Supports. Team members regularly attend training at PaTTAN, the BCIU, and the PBIS Implementors Forum. Our BCBA's regularly meet with school teams to ensure that positive behavioral supports are implemented with fidelity.

3. Describe the district positive school wide support programs.

Every building SWPBS has a continuum of behavior supports that considers all students and emphasizes prevention and is unique to their school culture. The goal is to have more students engaged in prosocial behavior and more resources (i.e., staff time) to address high-risk behaviors. It follows the following practices: Utilization of evidence-based behavioral and instructional principles Recognizes and builds upon student and staff strengths Focuses on the link between instruction and desired behavioral outcome Emphasis on proactive and preventive solutions to create a positive climate Data-Driven through school-based teams.

4. Describe the district school-based behavior health services.

Aside from services provided by our school counselors and social workers, additional School-Based Behavioral Health Services include regularly scheduled IEP behavioral/mental health counseling for those who require such support. The District works with Bucks County Mental Health, the Council of Southeast Pennsylvania, Warwick Family Services, and KS-Multi Systemic Therapy to provide additional school-based mental health services. Some buildings have assigned outside support providers housed in regular offices, while other buildings have drop-in services depending on the needs of individual students. The District and Bucks County Mental Health have agreed to work closely to address and provide individual mental health services at best as possible during the school day.

5. Describe the district restraint procedure.

Procedures for a Student with an IEP:1. One staff member will record information during the incident consistent with the RISC Reporting Data Fields. 2. The student's parent/guardian will be called that day and offered an IEP team meeting within 10 days, which the parent/guardian has the right to waive. 3. If the student was restrained by a certified staff member (teacher, administrator, etc.), that individual will enter the Restraint Information on the RISC Reporting website. 4. If the student was restrained by a support staff member (Instructional Aide, etc.), the teacher who works with the Instructional Assistant will submit the Restraint information on the RISC Reporting website. 5. The individual who restrained the student will complete a Major Discipline Referral summarizing the incident and noting that a restraint was required in order to keep the student, his or her peers, and/or staff members safe. 6. The Major Discipline Referral will be submitted to the Principal, Assistant Principal, or the Coordinator of Student Affairs. 7. The Principal, the Assistant Principal or the CSA will document that the Restraint took place in ESchool and in SWIS. 8. The Principal, the Assistant Principal or the CSA will use an Excel Spreadsheet to document the date of the restraint, the date of the IEP meeting, or the fact that the IEP Waiver was signed by the parent/guardian and returned to the school. 9. Board Certified Behavior Analyst (BCBA) will monitor the RISC Reporting website to ensure that all fields are completed for students in the Emotional Support Program. 10. School Psychologist will monitor the RISC Reporting website to ensure that all fields are completed for students in the Autistic Support Program. 11. The Principal, the Assistant Principal, or the Coordinator of Student Affairs will monitor the RISC Reporting website to ensure that all fields are completed for students who are not enrolled in the Autistic Support or the Emotional Support programs.

## Intensive Interagency

Please address any areas of concern with students who are placed on Instruction Conducted in the Home or who are at a substantial risk of waiting more than 30 days for an appropriate educational placement.

The District has not waited more than 30 days to offer an appropriate educational placement to students. The school district can provide FAPE to all students. IEP teams remain focused on selecting placements for implementing student IEPs in the least restrictive environment. The Neshaminy School District offers internal programs and contracts with BCIU #22 and other providers to meet the needs of our students with IEPs when the needs exceed our internal capacity. In recent years, the district increased its ability to program for more students within their neighborhood school or within the District. The District offers Learning Support, Emotional Support, Autistic Support, Life Skills Support, and Multiple Disability Support programs in Neshaminy schools. In extreme cases where a student may not make progress internally, and when coordinating with outside mental health/medical-based providers regarding a student's best placement options, interagency meetings are convened.
