

## We Build Futures Award

November, 2018

### Jon Shiota

*IT Support  
Neshaminy School District*

In your nomination, the following were highlighted:

- You proactively stay current of changing technology to provide your customer base with timely, professional service and assistance with applications;
- You face the challenge of “fighting fires” with technical problems in an expedient manner to reduce downtime;
- You and your colleagues work as a team to solve technical problems and to provide immediate support to all regardless of position;
- You work with teachers’ technical issues to provide them the tools needed to teach students in an advanced learning environment;
- You provide helpful tips and assistance to your customers to help them become proficient in the tools they need to be successful in their position;
- You have effectively led the District’s roll-out of the many (over 8,000!) Chromebooks that are now in use for students from elementary through secondary grades; and
- You are an example of “Neshaminy Pride.”

The above are ways that you show you care about your work and our students. The information technology support you provide gives example to our District belief that excellence in education requires support, sacrifice, and involvement from the total community.

You are an asset to Neshaminy High School and the District as a whole.
