

## We Build Futures Award

May, 2018

### Carol Alexis

*Nurse, Tawanka Elementary School*

In your nomination, the following were highlighted:

- You are one of the hardest working members of Team Tawanka;
- You make the health suite more than just a place that students go for a band aid -- it operates as a full service medical resource helping students and their families;
- You are seemingly on call 24/7 for staff, students and their families -- at all times of day or night;
- You support students returning to school with medical conditions;
- You treat all students with care and respect;
- You provide follow up with parents regarding incidents that happen at school;
- You are proactive in nature and always looking to improve;
- You have established connections with businesses in the community and receive countless donations to make the holidays brighter for our families – providing presents and meals for entire families;
- You can always be found attending after school events, such as family engagement nights, or baking for a staff breakfast;
- You are a perpetual student yourself and are taking graduate school classes along with colleagues in the building;
- You ensure that the students always feel loved and taken care of when they visit the nurse; and
- You make Tawanka and Neshaminy a better place every day.

In so many ways, you have helped advance our beliefs that all people have a right to a safe and healthy learning environment and that laughter, joy, and hope are essential for a quality life.

You are an asset to Tawanka Elementary School and the district as a whole.
