The AE Task Force Action Teams will meet monthly throughout the entire 2015-16 school year to develop an updated and improved K-12 Academic Enrichment/Gifted Services delivery model for the 2016-17 school year and will consider a wide array of gifted services options. The action planning teams will develop action/implementation steps to address the many recommendations outlined in the Program Quality Review report.

We are confident this year-long process combined with ongoing professional development and training will enable us to take major steps toward developing a solid gifted service delivery model for Neshaminy School District. We appreciate all the input from parents, teachers, and support staff at all levels of the organization and from throughout the community along with a steady commitment from the Bucks County Intermediate Unit in providing follow-up support.

Meeting summary reports will be shared throughout the year.
