Dear Parents and Guardians,

The Neshaminy School District is pleased to have the opportunity to provide your child with additional academic support in reading and/or math through its Title I program for the 2024-2025 school year. This program, funded with federal dollars, provides support to students in grades K-4 and is staffed with highly qualified and dedicated teachers and instructional assistants. Our Title I teachers and instructional assistants use their time and talents to help their students become more proficient in both reading and math and to help foster a love of learning.

One very important component of this program is parent and family engagement. Every attempt is made by our building staff and administrators to engage parents and families in their child's learning. Parent and family engagement is accomplished through conferences, classroom visits, informational meetings, opportunities to provide feedback, and specially designed workshops which involve both parents and children.

As you can see, we offer a very comprehensive program to our students and their families and look forward to your participation.

Best wishes for a great school year.

Sincerely,

Jason Bowman
Superintendent of Schools

Dear Parent(s)/Legal Guardian(s):

Your child attends a Neshaminy School District Title I school, which receives Federal Title I funds to assist students in meeting state achievement standards. Throughout the school year, we will be providing you with important information about this law and your child's education. This letter lets you know about your right to request information about the qualifications of the classroom staff working with your child.

At Neshaminy School District, we are very proud of our teachers and know they are prepared to give your child a high-quality education. Neshaminy School District Title I schools must meet federal regulations related to teacher qualifications as defined in The Elementary and Secondary Education Act (ESEA). These regulations allow you to learn more about your child's teachers' training and credentials. We are happy to provide this information to you. At any time, you may ask:

- Whether the teacher met state qualifications and certification requirements for the grade level and subject he/she is teaching,
- Whether the teacher received an emergency or conditional certificate through which state qualifications were waived and
- What undergraduate or graduate degree(s) the teacher holds, including graduate certificates and additional degrees in specific major(s) or area(s) of concentration.

You may also ask whether your child receives help from a paraprofessional. If your child receives this assistance, we can provide you with information about the paraprofessional's qualifications.

The Every Student Succeeds Act (ESSA) was signed into law in December 2015. It reauthorizes the Elementary and Secondary Education Act of 1956 (ESEA) and includes right to know requests. At any time, parents and family members can request:

- Information on policies regarding student participation in assessment and procedures for opting out, and
- Information on required assessments that include:
 - Subject matter tested, purpose of the test and source of the requirement (if applicable),
 - Amount of time it takes students to complete the test, and
 - Time and format for disseminating results.

Our staff is committed to helping your child develop the academic knowledge and critical thinking he/she needs to succeed in school and beyond. The commitment includes making sure that all our teachers and paraprofessionals meet applicable Pennsylvania state requirements.

If you have any questions about your child's assignment, please contact me at 215-809-6515 or email me .

SCHOOL BOARD POLICY #9186

OVERVIEW OF TITLE I PROGRAM

Title I is a 100% federally funded supplemental education program that provides financial assistance to local educational agencies to improve educational opportunities for educationally disadvantaged children. Title I programs are designed to help children meet the state content and performance standards in reading, language arts, and mathematics. In buildings with 40% or more poverty, LEAs may use the funds to upgrade the entire curriculum of the school and are Schoolwide Programs. In buildings with less than 40% poverty, programs are designed to help specific children and are targeted assisted programs.

The funds are allocated each year based on a grant proposal submitted by the Neshaminy School District and can be used solely for providing help to these children. Evaluation of the program is continual during the year. Specific guidelines must be followed to qualify for funding. The guidelines are as follows: Title I funds flow to states and school districts on a formula basis. The formula takes into account the number of low-income children and the statewide average per pupil expenditures. Resources within the state are targeted to the districts and schools with the greatest need.

SELECTION OF SCHOOLS

There are presently five elementary schools within the Neshaminy School District which qualify for Title I services (Joseph Ferderbar, Herbert Hoover, Walter Miller, Albert Schweitzer, and Tawanka). The selection of the schools is based on the number of students receiving free or reduced lunches in the individual schools. This selection method is mandated by the state, although there is not necessarily a correlation between a child requiring free lunches and the same child experiencing difficulty in reading/math.

CURRICULUM

The Title I curriculum is designed to support the classroom programs. Lessons are designed to strengthen the reading and/or math ability of the students.

All the literacy materials and teaching techniques used in the Title I program are designed to complement and reinforce the existing reading instruction in the regular classroom. In addition, support will be provided in the area of math based on student needs.

Our goal by the end of the school year is to improve reading and/or math performance of all participating students based on identified areas of need.

EVIDENCE OF EFFECTIVENESS

Annual testing results indicate that on average, Neshaminy Title I students show gains which exceed gains shown in most Title I programs throughout Pennsylvania. The NSD Title I program has been recognized by the United States Department of Education as an Unusually Effective Schools Program.

Performance assessment data collected at the end of each year indicate that students show measurable growth during the first year in the program and continue to improve their literacy skills from year to year.

PARENT INVOLVEMENT

The Neshaminy School District recognizes that the involvement of parents and their support of student learning are important factors in helping students meet with success. School Board Policy #918 states that: The Board recognizes that meaningful parent and family engagement contributes to the achievement of state academic standards by students participating in Title I programs. The Board views the education of students as a cooperative effort among the school, parents, family members, and community.

Neshaminy recognizes the importance of developing and maintaining ongoing communication with parents of students receiving assistance in our Title I program. It is important that parents receive information concerning their opportunities for involvement, their child's eligibility for the Title I program, their child's educational progress, and their rights of parents to receive information and to participate in the education of their children.

To assist parents in becoming active participants, the following programs and procedures are followed:

- An annual meeting is held at the beginning of each school year to explain the Title I program, goals, each school's involvement in the Title I program, specific information about the format of the program, and the rights of parents to be involved.
- Parents of students in the Title I program are given the opportunity to provide feedback about the Title I Parent & Family Engagement Policies at the district and school level.
- Parents also have the opportunity to help the Neshaminy School District

and the individual school staff in planning, reviewing, and improving the Title I program.

- Parent surveys are used to solicit feedback about programs and policies, and information is provided to parents in many other ways including: presentations and workshops held throughout the school year, school newsletters, parent conferences, and the school district website.
- Of particular importance are parent teacher conferences where teachers will discuss with parents the progress of their child, ways to monitor progress, individual student assessments, proficiency levels, grade level standards, and the Title I program. In addition to the scheduled conference, other conferences are scheduled upon request.
- Parents are also invited to participate in school events and volunteer in activities at the school.
- Parent training and workshop sessions are held in schools that are specific to Title I and are planned based on feedback and interests of parents.
- Parents are also given the opportunity to participate in the planning, review, and improvement of Title I programs.
- Information at the school and district level is provided regarding the rights of parents to information about school staff working directly with their children.
- A Complaint Resolution Process is in place and outlined for parents on the district website.

Important Parent Involvement Terms & Opportunities:

The Home-School Compact outlines how parents, teachers and students will share the responsibility for improved student achievement.

A Parent & Family Engagement Policy/Plan is developed with parents early in the year.

Back-to-School Night is held each fall in all the public elementary schools. Parents are invited to meet with classroom teachers. Title I Literacy Specialists are available to answer any questions or concerns you may have at this evening session.

A Title I Annual Meeting is held in the fall months. Parents are invited to personally meet the Title I Literacy Specialists. This is an opportunity for parents to become better acquainted with Title I program, policies and procedures. Interested parents will be asked at this meeting to help to set policies and procedures for the coming year.

Parent notification of students selected to receive supplemental reading and or math support is accomplished by sending a letter to parents prior to student participation in services. Parents have the opportunity to discuss specific instructional objectives for their child with the Title I Literacy specialist at any time, including the onset of the program.

Visiting Title I classrooms is encouraged. You may visit at any time during the day. However, we would like you to contact the school and the Title I Literacy Specialist to schedule your visit. Groups change frequently during the day; therefore, it would be most beneficial for you to come at the beginning of a scheduled period.

During an annual evaluation at the conclusion of the school year, parents will be asked to evaluate the content and effectiveness of the Parent & Family Engagement Policy and the Title I program. School staff will use the findings of the evaluation to revise policies as appropriate.

Parent volunteers are important to the school district and the success of our programs. You are encouraged to become a contributing volunteer. If you have any questions or concerns, you may contact your elementary school building principal.

Formal, scheduled parent conferences are held annually. At this time, the teacher informs you of your child's strengths and areas for growth and suggests activities or ways of helping at home. This is also a time for parents to express specific concerns about his/her child. In addition to these scheduled conferences, other conferences can be scheduled upon request.

School newsletters will include specific information regarding Title I services quarterly. These newsletters will keep you informed of happenings in your child's classroom. They will also include some hints and activities in reading for you to use with your child at home.

We appreciate the opportunity to work cooperatively with all parents to assist their child(ren) in learning to read so that the children can read to learn and build knowledge and skills that will ensure academic success.
