

Thursday (4/11/18)

Ms Michener

classify5ChemRxns

Chemistry

Academic Chem

Periods 2, 4, and 8

*

*Due now:

- > use textbooks (no phones) in classroom to define the following:
 - chemical equation
 - coefficient
 - combustion (reaction)
 - decomposition (reaction)
 - double displacement (replacement reaction)
 - precipitate
 - product
 - reactant
 - single displacement (replacement reaction)
 - solute
 - solvent
 - spectator ion
 - synthesis (reaction)

*HW (use text book at home or internet): definitions for following terms:

aqueous solution

chemical reaction

complete ionic equation

- net ionic equation

*All vocab will be checked in a open-note quiz next week!

(Lab) record data (measurements) for sugar
