

F-3 Cahill Superstars Newsletter

December 13, 2019

Language Arts

In reading, we are working hard on understanding character traits and using details from the story to support our answers. Continue to practice this with your child at home. For example, ask your child what traits a particular character has. Ask them to use details from the story to describe their answer. *In writing*, we are working on informational writing. We recently wrote about kindness and gave examples on how to be kind. Next week we will continue to gather information for an information writing assignment and also enjoy some fun holiday writing projects.

SCIENCE

We are learning about animal adaptations! We are learning about what an adaptation is and how it helps animals! We are making a book to help teach others about the many amazing adaptations animals have!

Math

We continue to build our multiplication fluency. We are working on using different strategies to solve multiplication problems. Please practice facts with your child at home. Please log onto IXL and REFLEX math to reinforce fluency. We will begin working on word problems. This week we created fun "city skyscraper" arrays to practice building arrays to help reinforce multiplication facts.

Notes from Mrs. Cahill

Thank you all for coming to conferences this week. It was great getting to sit down and speak with you all about your child's progress. I will continue to update you on your child's progress and if you ever have any questions please do not hesitate to reach out to me!

Important Dates

Mon. Dec 23- Wed. Jan 1st- School is closed
Have a fun weekend!
