

F-3 Cahill Superstars Newsletter

November 22, 2019

Language Arts

In reading and writing, we continue to enjoy nonfiction and informational text. This week we worked on an informational writing piece regarding kindness. The children focused on writing what you can do to be kind! They made sure they had a topic sentence, supporting details, and a closing to ensure their writing had great structure and meaning! We continue to work on vocabulary and grammar throughout the week. Next week we will focus on compound words and a new vocabulary unit!

SCIENCE/SOCIAL STUDIES

We are enjoying learning about different landforms, identifying landforms and figuring out what a landform is based on its description. Next week we will begin our unit on animal adaptations!

Crayfish- *If you would still like a crayfish please let me know! We have MANY babies!*

Math

This week we began our multiplication unit. Over the next weeks we will be learning different multiplication strategies, properties, and facts. Please see my attached letter regarding multiplication. Each day we will focus on different strategies and applying those strategies. After we have practiced multiples up to 10, we will begin working with multiplication word problems.
