

Happy
Groundhog
Day!

F-3 Cahill Superstars Newsletter

February 7, 2020

Language Arts

In reading, we enjoyed working on our most recent vocab unit! We continue to work on finding the main idea and use the text to support our evidence. We are also regularly working on summarizing! The children had a great time at the book fair and are enjoying their new books during independent reading time. In writing, we continue to work on our biographies. We have finished up our research and working on our first drafts. We are learning how to revise our writing to make it better!

SCIENCE

We are thinking like materials engineers! We are looking at different materials and discussing their properties, structure, and the process the raw material went through!

Math

This week we reviewed for our multiplication and division assessment. We will continue to work on these skills as the year continues. We will begin working with fractions. Please continue to practice multiplication and division at home. IXL and Prodigy are two great free resources for home!
