

F-3 Cahill Superstars Newsletter

February 14, 2020

Language Arts

In reading, we are working on making inferences. The children are practicing this skill weekly. We continue to work on using text evidence to support our answers and comprehension of what we are reading. In writing, we continue to finalize our biographies for Black History month. We are in the process of editing and finishing up some research. The children were introduced to Haiku poetry this week. We put together some beautiful pieces to share at our poetry reading on Valentine's Day

SCIENCE

We continue to think like material engineers! We are testing two materials and observing, comparing, and discussing our findings!

Math

This week we began working with fractions. The children will be expected to understand basic fractions, add/subtract fractions with the same denominator, compare fractions, and identify equivalent fractions. We are also still practicing multiplication/division/addition/ subtraction daily. We will continue to work on these skills as the year continues. Please continue to practice all skills using IXL. PLEASE take advantage of these wonderful resources. IXL and Prodigy are two great free resources for home!

Notes from Mrs. Cahill

Thank you for all for coming to our Valentine Poetry Reading. The children had a great time preparing their poems for you to enjoy and learning all about Haikus!

Important Dates

Mon. February 20th- Tues. February 21st-

School is closed
