

F-3 Cahill Superstars Newsletter

October 18, 2019

Language Arts

In reading, we are working on reading small articles and stories. We are working on highlighting key words and phrases. We are then answering questions by using evidence from the text. This is a skill we will work on throughout the year. In writing, we are choosing our personal narrative piece that we are going to publish. The children are also working on a fun fall activity about a pumpkins! Over the past several weeks they have created beautiful watercolor pumpkins and will be writing about them.

SCIENCE

We began an exploration on plants and seeds. We are having fun working in groups and watching the germination of different seeds!

Math

Please be sure to sign your child's math test that is coming home today and return it in the folder on Monday. This week we had fun working in centers/math stations. This week we are working on using different strategies to add 3-digit numbers. I encourage the children to practice these strategies, but ultimately choose which one they like the most and works best for them! Next week we will work on subtraction and multi-step word problems. Our next math test will be on Wednesday Oct 30th. This will cover addition, subtraction, and word problems. A study guide will come home at the end of the week next week.
