

F-3 Cahill Superstars Newsletter

October 25, 2019

Language Arts

In reading, we are working on vocabulary and grammar workshop. We are looking at words, identifying parts of speech, finding definitions, using text clues to find meaning, and much more. This week we also focused on identifying the genre of a text by looking at specific text features. This is a strategy good readers use! In writing, we are working on our personal narratives. We are working on creating a catchy lead to introduce readers to our amazing story!

SCIENCE

We continue to enjoy our exploration of plants. We are growing plants using a hydroponic system. Ask your child about this! We also completed a fun holiday themed science activity. We studied our SKULL!

Math

This week we had fun working in centers/math stations. This week we are working on using different strategies to subtract 3-digit numbers. I encourage the children to practice these strategies, but ultimately choose which one they like the most and works best for them! We worked on subtracting across zeros. Our next math test has been changed to Tuesday November 5th. This will cover addition, subtraction, and word problems. A study guide will come home at the end of the week next week.

Notes from Mrs. Cahill

If anyone would like to donate a spooky treat to our class for Halloween for us to enjoy please let me know. We have a nut and egg allergy. Thank you in advance!

This week we enjoyed UNITY DAY! We came together as a school to discuss kindness. It was a fun day!

Important Dates

Thursday Oct 31st -
Halloween parade at 2:00

Tuesday Nov 5th - Math Test

Have a wonderful weekend!
