

# F-3 Cahill Superstars Newsletter

September 20, 2019

## Language Arts

We continue building stamina as readers. This week we practiced what to do if we are confused while reading. We also learned what it looks like to work on "listening to reading" in our classroom. Next week, we will continue to practice making predictions as a reader. In writing, we are working on how writers get ideas for their writing and we practiced "jotting" in our writer's notebook. This week we are learning all about NOUNS! We have been focusing on proper and common nouns.

## Social Studies

We are finishing up our first chapter on "Where in the world is our community". We will have a social studies test next Thursday, **September 26<sup>th</sup>**. Your child will bring home a study guide, their classwork, and textbook to study from.

## Math

This week we finished our first chapter in math. I am so impressed by the student's progress already and we are enjoying working in teams and practicing math skills daily. The children have access to "think central" through Clever. On Think Central, you can play games, look at the text book, and see what we are learning in class. Your child also has access to IXL math. I encourage you to use these free resources! We will begin Chapter 2: Mental Math and Estimation next week.

## Notes from Mrs. Cahill

- Today we completed a STEM activity! We are all engineers and had to build our own "apple trappers". Ask your child about this activity!
- This week we practiced an intruder drill. We discussed that this will most likely never happen, but we practice to be prepared for anything!

## Important Dates

**Sept 30<sup>th</sup>-Oct 1<sup>st</sup>-**  
School is closed

Have a wonderful  
weekend!
