Neshaminy School District *Student Learning Opportunities Phase 2*

March 23, 2020

Dear Neshaminy Elementary Families,

The Coronavirus Pandemic continues to impact all of us. While we continue to focus on the continuation of K-12 education, we are aware that this may not be the most important goal many of our families are currently facing. As we share Phase 2 of the Learning Plan, please know we will assist you throughout the process.

Last week, we released the Elementary Learning Opportunities on the District Website (www.neshaminy.org/eslearning). The learning opportunities released continue to provide a daily structure for students to participate in activities in each of the core content areas. Please encourage your child to complete an activity in each of the content areas provided.

In addition, we provided a list of online resources to supplement the daily Learning Opportunities provided within the daily structure. The online resources are familiar to your child and are easily accessible via Clever.

Today, we released Phase 2, which includes the following opportunities and resources:

- Social Emotional Learning Opportunities and Resources (K-4)
- Virtual Field Trips
- Additional Online Resources in all content areas and specials
- College and Career Learning Opportunities (Grades 3 and 4)

**These resources can be found on the Social Studies LO link*

As developments continue to unfold, we are preparing for Phase 3 in the Learning Plan for our students. We will provide additional information on the next phase as it is finalized and approved. We know you have many questions, and we hope to be able to answer all of them overtime. We have received direction from the Commonwealth and continue to follow and adjust based on the daily updates we receive. We ask that you are patient during this time of uncertainty, and know that our overall goal is to help our students successfully reach the end of the school year while remaining healthy.

Thank you,

Michelle Burkholder
Director of Elementary Education
