

# Neshaminy School District

## Health Screening Questionnaire

The safety of our employees, their families, and our community is Neshaminy School District's highest priority. The Centers for Disease Control and Prevention (CDC) and local health authorities have acknowledged community spread of COVID-19 and issued precautions.

To reduce the potential risk of exposure, we ask that you independently complete this simple screening questionnaire prior to entering our facility. Thank you for your time and participation.

Do you currently have symptoms that may be due to COVID-19, but not attributable to another preexisting health condition, particularly:

A fever, or feeling feverish?

A sore throat?

A cough?

A headache?

Shortness of breath or difficulty breathing?

Nausea or vomiting?

Congestion or runny nose?

Muscle or body aches?

Diarrhea?

New loss of taste or smell?

If the answer is "yes" to any of the above, your access to this facility is denied.

**FACE MASK REQUIRED**
