## THE FIVE FEATURES OF A CIVILIZATION

### **1. STABLE FOOD SUPPLY**

#### *Define / Examples*

A stable food supply means **there is enough food for all of the people all the time**. There could even be a surplus (extra).

### **2. SPECIALIZATION OF LABOR**

#### *Define / Examples*

Specialization of labor means **people are able to choose various non-agricultural (non-farming) occupations (jobs) as a result of the surplus from the stable food supply**.

### **3. SYSTEM OF GOVERNMENT**

#### *Define / Examples*

A system of government **maintains order in a society**. There is an **organized way of making and enforcing decisions**. There is a leader, laws, and enforcers of the laws.

### **4. SOCIAL LEVELS**

#### *Define / Examples*

Social levels **refers to different classes or groups of people in which some are richer and more powerful than others**.
