

Verify the **Global Protect** application is installed **BEFORE** attempting the steps below. *****Please note***** You are required to login from inside Neshaminy School District, at least once, for the Global Protect application to install.

Click the **Global Protect** icon, and enter **remote.neshaminy.org** in the portal address field. Then click **Add Connection**.

Click anywhere in the **System Tray**, then select the **VPN disconnected** tab.

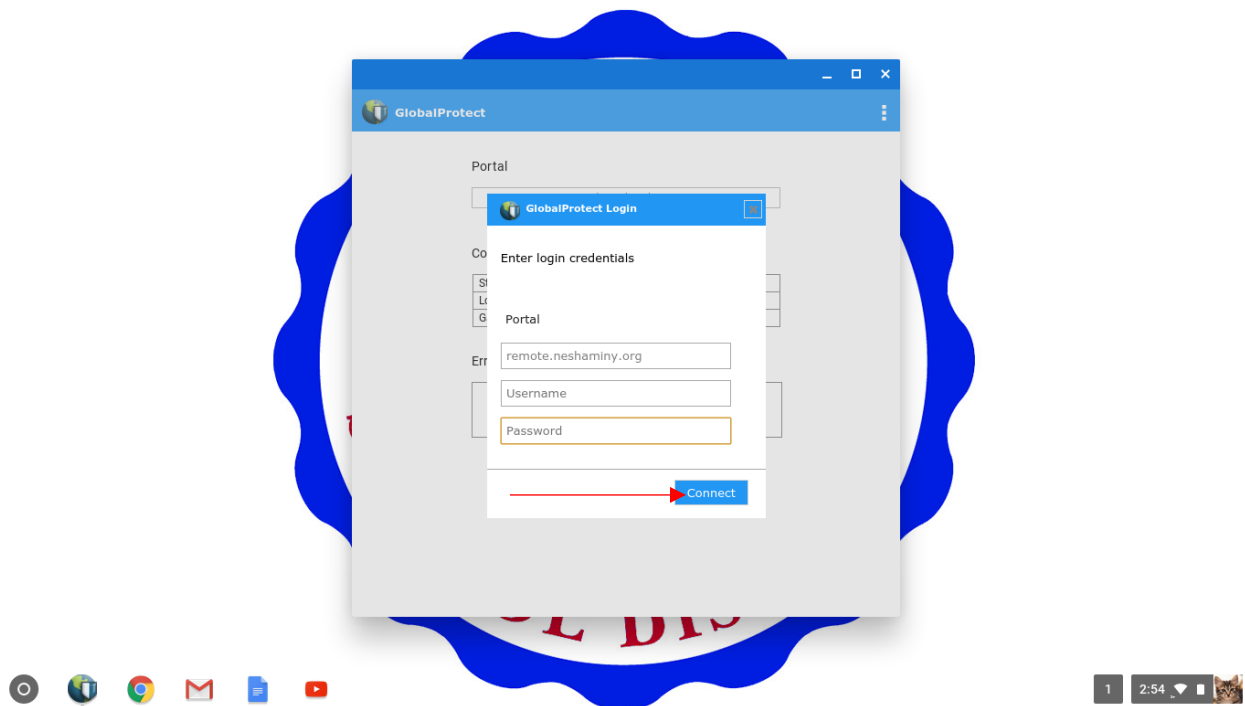

Select the **remote.neshaminy.org** network.

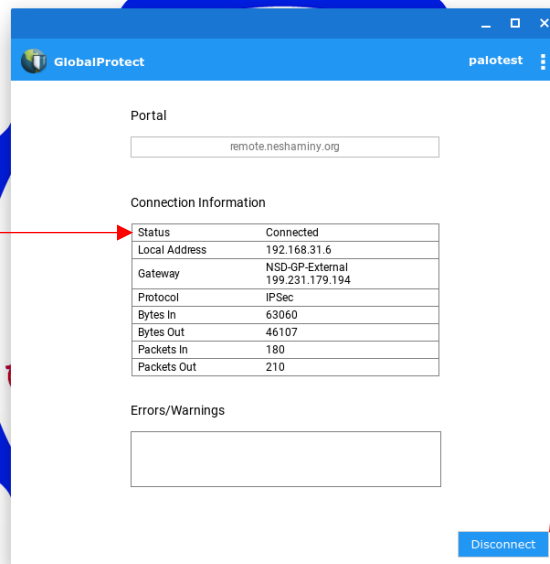

Select **Continue** when prompted by the Server Certificate Error prompt.

Enter your Student ID # in the **Username** field, and your network password in the **Password** field. Then select **Connect**.

The Global Protect connection was completed successfully if **Status** is showing as **Connected**. You may disconnect at anytime by selecting **Disconnect**.

The screenshot shows the GlobalProtect application window. The title bar includes the application name 'GlobalProtect' and the user 'palotest'. The main content area is divided into three sections: 'Portal', 'Connection Information', and 'Errors/Warnings'. The 'Portal' section contains a text input field with the value 'remote.neshaminy.org'. The 'Connection Information' section contains a table with the following data:

Connection Information	
Status	Connected
Local Address	192.168.31.6
Gateway	NSD-GP-External 199.231.179.194
Protocol	IPSec
Bytes In	63060
Bytes Out	46107
Packets In	180
Packets Out	210

The 'Errors/Warnings' section contains an empty text input field. At the bottom right of the window, there is a blue button labeled 'Disconnect'. A red arrow points from the 'Status' field in the table to the 'Disconnect' button.
